CHIC BY LIRETTE

SHOES SS2015

Inspired by my travels to exotic places and colorful influences from the far corners of the earth and my love for music, I create collections which reflects my personality: feminine, chic and sophisticated at one side, being edgy, rough and a bit of a rebel on the other side.

You can find fashion trends in my collections but basically I create what I'm passionate about and believes others love to wear.

Characteristic for Chic by Lirette is the yearly spring and summer collection for

ladies. Maxi dresses, cover-ups which are dressed on top of a bikini, matching perfectly with sandals and wedges. This season we added some more flavors to the collection like maxi skirts and combining tops, shorts with matching tshirts and beach bags.

Lirette

Chic by Lirette, known as Hip&Chic until summer 2013, is growing fast, covering more then 200 points of sale in medium-high segment boutiques, shoestores and department stores.
